

Instruction **BABY BALL** approx. Ø 30 cm

Materials from Gütermann

- All-purpose sewing thread in a matching colour
- Cotton fabric 145 cm wide, collection CIRCUS:
 - 0.3 m star pattern in pale pink-white
 - 0.3 m dot pattern in white-multicolour
 - 0.5 m seal pattern light pink-multicolour

In addition

- 600 g wadding
- 0.1 m fusible webbing H 250, 90 cm wide
- Pattern paper

Tools

- Sewing machine
- Iron
- Scissors
- Ruler
- Tailor's chalk or textile marker
- Pins

Preparation

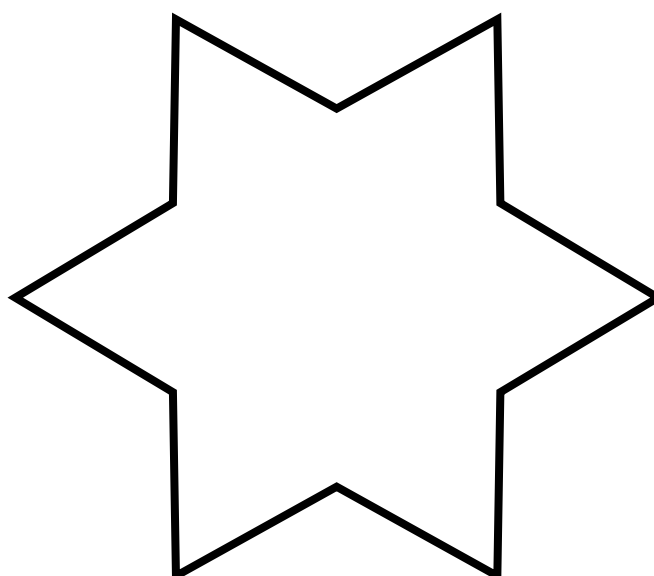

Draw the side section (ball pattern) on double folded pattern paper (quartered), laying the dashed lines directly on the folds. Cut out the pieces and unfold.

Cutting

- Side section: 2x each on double folded fabric with star, dot and seal pattern
- Star: 2x each in the star pattern and fusible webbing (without a seam allowance)

Cut all parts with 1 cm seam allowance.

Pattern Star: original size

1. Lay 2 side sections (ball pattern) in different patterns together with right sides facing and pin. Stitch the seam to the width of the seam allowance and leave the seam allowance open at the beginning and end of the seam.

2. Sew all 6 side sections together in sequence, always leaving the seam allowance open at the points. It is easiest to mark the starting and end points with a pin and to mark it with chalk or with a marker.

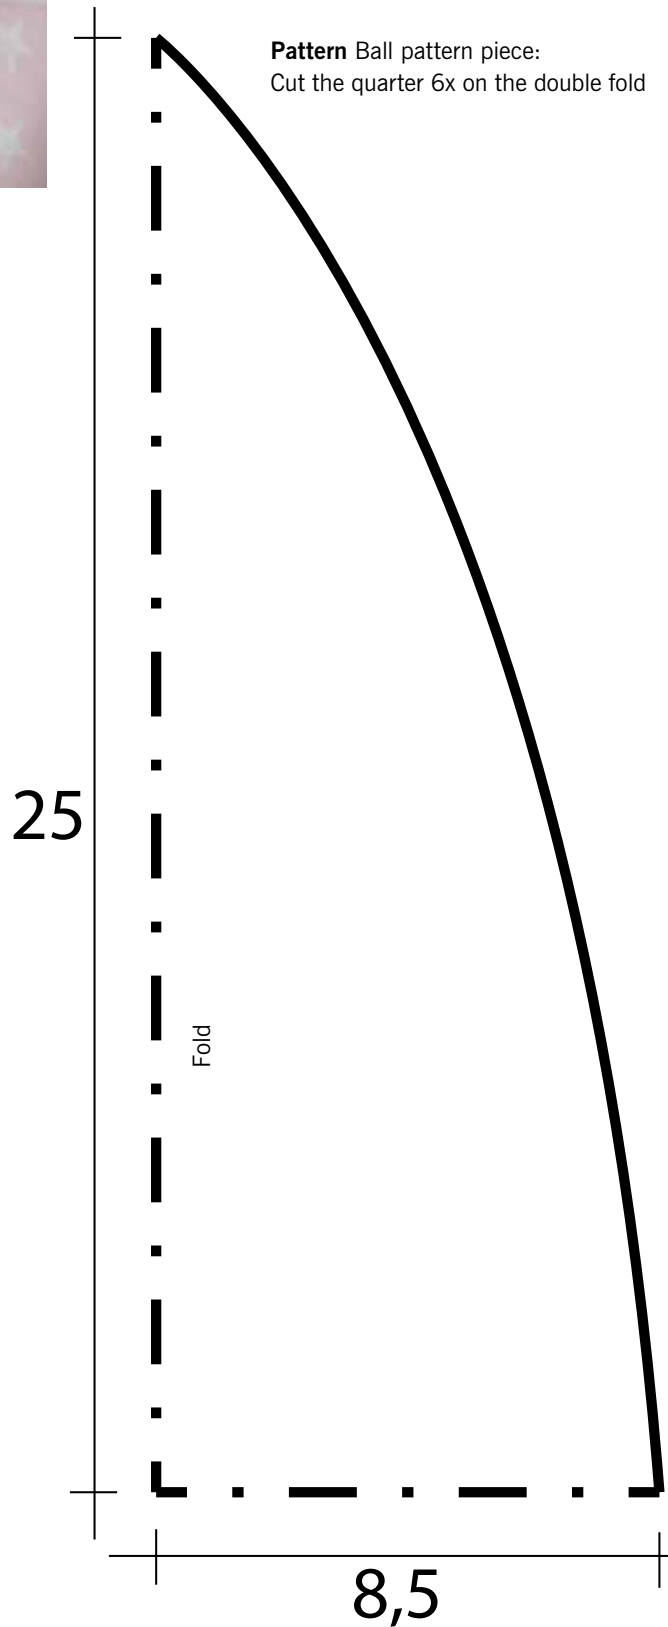

3. Finally sew the 1st and 6th side sections together leaving a slit of approx. 8 cm in the centre of the seam open for filling.

4. Iron the fusible webbing star to the reverse of the fabric stars so that the seam allowances extend beyond the edges. Cut the allowance at the inside corners to just before the corner. On the outer corners first iron the point to the inside and then fold the sides inwards over the webbing and iron.

5. Turn the ball right side out and fill it with wadding. Close all the slit edges by hand. Hand stitch the stars to the top and bottom centre.
