## Cutting

Cut all pieces with a seam allowance of 1 cm.

**1.** Turn down the fabric edge at a width of 1 cm on an edge with a length of 48 cm (+ seam allowances = 50 cm) of one cushion back side. Iron the edge, then turn it down again at 1 cm, fix with pins and iron. Stitch the hem close to the edge and iron again.

**2.** Proceed in the same way for the second half of the back side.

**3.** Place the back sides on top of each other wrong side on right side, producing a square with the outer edges of 50 cm x 50 cm. Fix the parts of the back side using pins or possibly stitch them.

**4.** Now place the front side on the back side, right sides together, the outer edges lying on top of each other congruently. Fix the outer edges all-round using pins. Stitch the seam along the outer fabric edge at a width of 1 cm, securing the start and end of the seam with backstitches. Iron the seamline.

**5.** Trim the seam allowances along the outer edges altogether. Remove the stitching threads or pins from the back sides that are lying on top of each other. Turn the cushion through the flap closure. Shape the corners and outer edges and iron again. Insert the cushion filling.
